

SWECO®

SANIPLATE™ PERFORATED PLATE

CREATES A MORE SANITARY ENVIRONMENT

The SWECO® SaniPlate™ is the newest sanitary screen innovation. The integral design of the SaniPlate requires no spot welding, eliminating the gaps that occur between the plate and the screen tension ring with conventional welded perforated plate screens. By eliminating the gaps, this revolutionary process is able to minimize the product build-up, creating a more sanitary environment.

The SaniPlate is available in 18, 24, 30, 40, 48 and 60-inch diameter screen sizes.

When a more sanitary option is required over a standard perforated plate, look to the SWECO SaniPlate for the latest in round screen technology.

One more innovative idea available from the industry leader ... SWECO.

**MINIMIZES PRODUCT BUILD-UP
BY ELIMINATING WELD GAPS**

Eliminates Any Gaps Between the Plate and the Screen Tension Ring

HOLE SIZE AND PATTERN
CAN BE CUSTOMIZED TO
A VARIETY OF REQUIREMENTS

WHITE SILICONE GASKET IS
MANUFACTURED USING FDA
APPROVED INGREDIENTS PER
21 CFR 177.2600 AND IS
EC1935 COMPLIANT

ONE PIECE DESIGN
WITHOUT WELDS

SPECIAL SILICONE
SANITARY GASKET FITS ALL
STANDARD FRAMES

Benefits of SaniPlate Perforated Plate

- Unitary design was engineered to eliminate the gaps that occur with typical spot welded perforated plate screens
- Product build-up is minimized
- More sanitary environment is created
- Works with most Authentic SWECO Aftermarket Products
